

BEATRICE DUGUID COX

Born and brought up in Italy by English parents, I'm a very creative, practical and responsible Anglo-Italian, who likes a challenge. Good at working in a team and keeping to tight deadlines. Excited when it comes to learning something new.

SOFTWARE

Confident in the use of **Adobe Creative Suite** (Illustrator, Photoshop, Indesign, XD), have had a few experiences of After Effects

Confident with a range of 3D modelling programmes **3D modelling:** PTC Creo, Solidworks, Sketchup, Autodesk Alias

In May 2019 I completed a 3 day intensive **Rhino for Architecture and Engineering** course, to help with a work project.

LANGUAGES

Bilingual in English and Italian
Basic French

PRIZES

Whilst at **Bonaveri**, the new eco-friendly packaging my team designed was adopted by the company and won them a prize. The prize was awarded by **Conai** who thought the concept was outstanding, both technically and in terms of design.

"Premio speciale per il caso più meritevole dal punto di vista tecnico e progettuale"
"Special Prize for the worthiest case from the technical and design point of view"

From the age of 10, my schools have all specialized in art. Being completely immersed in this world gave me the opportunity to experiment with and master a wide range of 2D and 3D media and to get as much inspiration as possible from my surroundings. I see everything as a form of art and capture the most interesting and exciting with my camera. Being a foodie person, I love to explore different cuisines. Love yoga and tennis and I'm also a keen board game player!
