

BEATRICE DUGUID COX

My time at Minale Tattersfield has helped me develop a very good eye for detail and increase my knowledge in graphic design, as well as implementing my presentation skills and becoming confident at interacting with international clients.

SKILLS

SOFTWARE

Skilled in the use of **Adobe Creative Suite**
(Illustrator, Photoshop, Indesign, XD), have
had a few experiences with After Effects
and Figma

Confident with a range of 3D modelling
programmes **3D modelling:** PTC Creo,
Solidworks, Sketchup, Autodesk Alias

In May 2019 I completed a 3 day intensive
Rhino for Architecture and Engineering
course, to help with a work project.

LANGUAGES

Native English and Italian speaker

PRIZES

Whilst at Bonaveri, the new eco-friendly
packaging my team designed was adopted
by the company and won them a prize. The
prize was awarded by Conai who thought the
concept was outstanding, both technically
and in terms of design.

**"Premio speciale per il caso più meritevole
dal punto di vista tecnico e progettuale"**
**"Special Prize for the worthiest case from
the technical and design point of view"**

All my education was specialized in art - having been completely immersed in this world, I had the opportunity to experiment with and master a wide range of 2D and 3D media and to get as much inspiration as possible from my surroundings. There are never to many interesting and exciting things to capture and explore. Being a foodie person, I love to explore different cuisines. Love yoga and tennis and I'm also a keen board game player!
